

LESIONS of the BRAIN

FRONTAL:

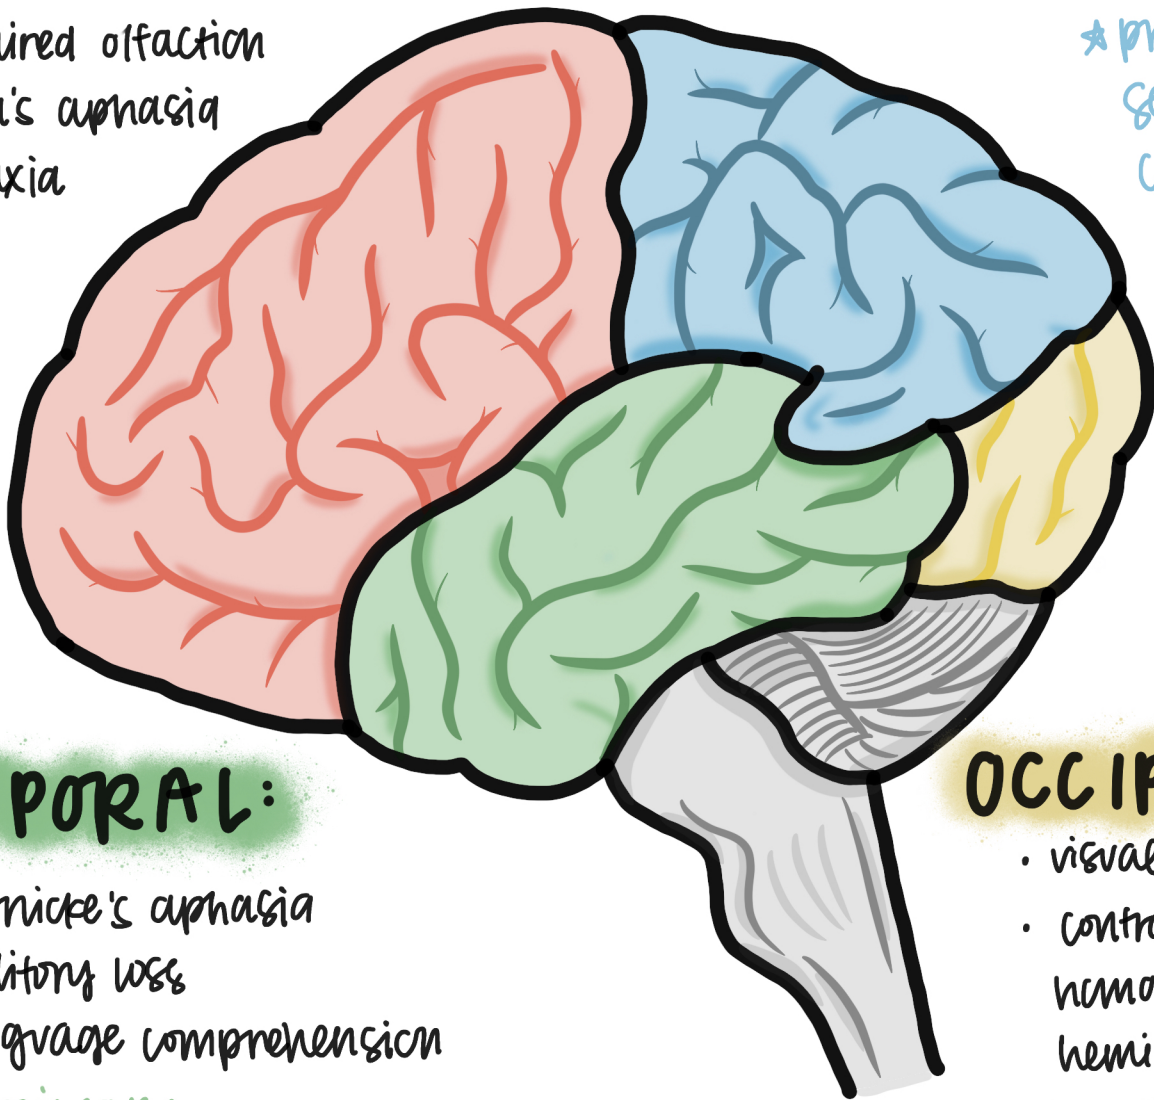

- motor loss
- impaired emotional & behavioral control
- impaired olfaction
- Broca's aphasia
- apraxia

* primary motor cortex

PARIETAL:

- sensory loss (p., temp., touch, pressure)
- impaired taste
- perceptual disorders

* primary sensory cortex

TEMPORAL:

- Wernicke's aphasia
- auditory loss
- language comprehension

* primary auditory cortex

OCCIPITAL:

- visual loss
- contralateral homonymous hemianopsia
- inability to identify previously known objects

* primary visual cortex
